

Keller Engineers of New Jersey

Keller Engineers is seeking a full-time Structural (Bridge) Engineer for a position based in our growing Camden, New Jersey office.

The position requires:

- Bachelor of Science in Civil Engineering (BSCE) (MS preferred);
- NJ Professional Engineer's license;
- 10-15 years of fundamental AASHTO bridge design experience, familiarity with NJDOT and NJTA design standards, LRFD design and LRFR load rating methodologies and current state of practice such as accelerated bridge construction and prefabricated bridge elements, is preferred;
- Minimum of 5 years of experience working on bridge transportation projects; building investigations and analyses, retaining walls, foundation designs, building framing such as garages and salt storage facilities;
- Sound oral and written communication skills;
- Excellent organizational skills;
- Proficiency using CADD (Microstation and/or AutoCAD) along with various structural/civil design applications; Revit and BIM desired but not required;
- Desire to work in a team environment.

If you are looking for an exciting, challenging career, Keller Engineers offers a wide variety of options. We are an Equal Employment Opportunity firm that offers Competitive Wages, a Healthcare Benefit Package, Paid Time Off, Paid Holidays, and a 401-K Retirement Plan. Salary is commensurate with experience.

Employees are given the necessary tools, mentoring, and guidance necessary to be a successful employee, and are recognized and rewarded for hard work and innovative, creative thinking. Our employees also enjoy a work environment that provides a solid balance between work and home. If you would like to work in this type of professional environment, we welcome your resume for consideration.
